## **DETAILED ACTION**

### ***Election/Restrictions***

1. The previous restriction requirement is withdrawn due to the remarks submitted with the election with traverse on January 22, 2007.

### ***Drawings***

2. The drawings are objected to because of the following minor informalities: the view numbers are not in accordance with 37 CFR 1.84(u)(1). For example, "FIG. 1" should replace "Fig. 1". Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the

examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Rejections - 35 USC § 101***

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claims 1-15 and 27 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

(A) Regarding claims 1-15, the computer accessible medium may include in its present scope a data signal or carrier wave, a form of energy, which is not one of the four statutory categories of invention noted above.

(B) Regarding claim 27, the system comprises only computer systems, which may be software, as noted on page 1 of applicant's specification, "This invention is related to the field of computer system backup/restore software". Software is not one of the four statutory categories of invention noted above.

***Claim Rejections - 35 USC § 112***

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1-27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

(A) In claims 1 and 16, "a first computer system" has unclear antecedent basis since "a computer system" was already mentioned.

(B) In claim 27, "the computer system", as it appears in line 10, has unclear antecedent basis, since it may refer to either "a first computer system" or "a second computer system".
